Participants are awarded Certificates of Completion.</li></ul>

## IATF 16949:2016 Internal Auditor Training

This auditor training follows the guidelines found in ISO 19011 as it applies to the IATF 16949:2016 Automotive Standard. Training includes a complete review of the Automotive Standard, training in conducting audits and conducting area audits, which can be used as a part of the company's Internal Audit Program.

### **Training includes:**

1. An explanation of the requirements of IATF 16949:2016 and how it applies to your company's Quality Management System.
2. Preparation of internal and external audits;
3. Use of proper etiquette during an audit;
4. Completion of all required audit paperwork;
5. Identifying and writing non-conformances;
6. Conducting a follow-up audit; and
7. Each attendee is expected to complete 2 actual audits.

### **By the end of the course, your team of auditors will be able to;**

1. Understand the requirements of the Automotive Quality Standard;
2. Know how to apply the requirements of the Standard to your company's documents;
3. Know how to prepare, conduct, summarize and close-out an audit;
4. Know how to write and issue non-conformances; and,
5. Know how to explain the reason for the nonconformance to area personnel; and,
6. Be able to manage your audit program for both internal and external audits.

The company will provide the classroom and refreshments for participants and the AKA trainer if appropriate.

*Internal auditors can assess your Quality Management System to ensure it is compliant to the latest IATF 16949:2016 Standard*
