VDA 6, Part 3 – Internal Auditor Training

Internal auditors can assess compliance based upon the German Process Audit Standard

This auditor training follows the guidelines found in the latest version of the German Automotive Process Audit Standard, VDA 6, Part 3:2016. Training includes a complete review of the Standard, training in conducting audits and conducting area audits, which can be used as a part of the company's Internal Audit Program.

Training includes:

1. Explanation of the requirements of VDA 6, Part 3: 2016 and how it applies to your company's existing IATF 16949:2016 Quality Management System.
2. Integration of your current QMS with the VDA 6, Part three German Process Audit Standard.
3. Preparation of internal and external audits;
4. Use of proper etiquette during an audit;
5. Completion of all required audit paperwork;
6. Identifying and writing non-conformances;
7. Conducting a follow-up audit; and
8. Each attendee is expected to complete 2 actual audits.

By the end of the course, your team of auditors will be able to;

1. Understand the requirements of the VDA 6, Part 3 German Process Audit Standard;
2. Know how to apply the requirements of the Standard to your company's documents;
3. Know how to prepare, conduct, summarize and close-out an audit;
4. Know how to write and issue non-conformances; and,
5. Know how to explain the reason for the nonconformance to area personnel; and,
6. Be able to manage your audit program for both internal and external audits.
