*"Change is a constant"*

## Overview of the VDA 6, Part 3 Standard

If your company is an automotive supplier to BMW or Mercedes Benz, developing and maintaining a VDA 6, Part 3 certified Quality Management System is most likely requirement. This course provides an overview of the latest version of the German Automotive Process Audit Standard, VDA 6, Part 3:2016. This is a 4 hour Overview about the requirements of this Standard for the Automotive Industry.

1. This is a half-day of looking at the requirements of the Standard and identifying requirements for the quality manual, procedures, and work instructions.
2. Attendees will have a better understanding about the task required to establish, document, and implement their quality management system in accordance with the VDA 6 standard.
3. Based on the standard's requirement for process auditing, the information provided will help you determine how you need to audit your Quality Management System in accordance with the standard and the requirements of your customer.

For more information about holding this class at your company, or to attend one of AKA's open class offerings, contact Advantage Kentucky Alliance.
