ISO 14001:2015 Internal Auditor Training

This auditor training follows the guidelines found in ISO 19011 as it applies to the EMS Standard. Training includes an overview of ISO 14001:2015 and instruction on how to conduct a quality management system audit. Training and real-life examples are used in the training, which also covers;

1. Audit preparation;
2. Class exercises;
3. Audit procedure;
4. Preparation for live audits;
5. Exercises in completing an audit summary and non-conformance/observation reports; and
6. Critique of the audit by the consultant with certificates awarded for course completion.

Internal auditors can assess compliance based upon your company's standards allowing a sustained EMS program

Specific Training includes:

1. Understanding about the requirements of ISO 14001:2015;
2. How to apply the new requirements to your Company's EMS;
3. Supply and use of an audit checklist;
4. How to prepare and complete an internal and external audit;
5. How to complete all the required paperwork;
6. How to issue and categorize major and minor non-conformances;
7. How to complete a follow-up audit; and
8. Planning for future audits.

As part of the training, each attendee is expected to complete two actual audits.

The company will provide the classroom and refreshments for participants and the AKA trainer if appropriate.
