

NIST 800 – 171 Compliance Assessment and Plan of Action

Services	Deliverables
<ul style="list-style-type: none"> NIST 800-171 Compliance Assessment and Plan of Action with Milestones 	<ul style="list-style-type: none"> Up to 12 hours off-site document and process review, technical assessment of information systems and security controls, gap analysis, written assessment including compliance plan of action with milestones.

NIST 800-171 Compliance Assessment and Plan of Action with Milestones

This is an assessment of documents, processes, systems, and procedures in place for the protection of Controlled Unclassified Information (CUI) in accordance with the guidelines set forth in NIST SP 800-171 (as directed by DFARS 252.204-7012). This assessment includes technical communications with customer’s in-house and 3rd party IT personnel to assess the information system and security controls that protect CUI, a gap analysis, a written assessment documenting the findings, and resulting plan of action with milestones.

“Have your system network security assessed by an independent 3rd party.”

Objectives of this service:

- Discover and document details of current security posture, to include technical measures as well as policy measures
- Determine what additional measures must be emplaced to achieve compliance with NIST 800-171
- Document a plan of action and milestones for implementation of measures to achieve compliance with NIST 800-171

Upon completion the company will:

- Possess written NIST 800-171 Compliance Assessment
- Have a written Plan of Action and timeline/milestones to achieve further compliance
- Be able to demonstrate to contract prime/DoD POCs company’s initial due diligence (ongoing effort) to comply with the standard
