In-Person NIST 800-171 Cyber Awareness Training

Up to 4 hours on-site training to address NIST 800-171's requirements for annual training for employees on cyber threats, security policies, and insider threats. One trainer will come on-site to address groups of employees in an open discussion training format.

"Better Cyber-Safe than Cyber-Sorry. Cyber-Sorry takes on new meaning daily."

Objectives of this service:

- Satisfy the NIST 800-171 control item 3.2.1, requiring annual Cybersecurity and Policy Training
- Satisfy the NIST 800-171 control item 3.2.3, requiring yearly training on recognizing and reporting insider threats
- Train employees on policies and procedures that help protect the customer's network and property

Upon completion the company will:

- Satisfy the NIST 800-171 requirements 3.2.1 and 3.2.3
- Have workforce educated on company's information security policies and procedures
- Have an organizational understanding of the threat posed by cyber-attacks and insider threats, as well as have training on how to combat and mitigate these threats
