Safety Ladder Workshop

This workshop is intended as an essential guide for employees working on or around ladders. The course provides quick, expert advice on the most critical workplace safety issues caused by unsafe ladder activity to **OSHA Standard 1910.25**.

"Successfully Climb the Ladder of Success"

Employees receiving this 4 hour training will be able to:

- Select the correct ladder to use
- Perform pre-use inspections of ladders
- Properly store ladders
- Recognize actions that could cause injuries when using ladders.

Upon completion of the workshop an operator will know how to safely operate a ladder and recognize potential for:

- falling off the ladder
- dropping items while on a ladder
- contact with electrical lines hot pipes, fans, etc.

They will also know the types of injuries caused from improperly stored ladders or ladders tipping over.

The company will provide the classroom and refreshments for participants and the AKA trainer.
