

Safety Compliance Audit

Services	Deliverables
▪ Safety Compliance Audit	▪ 8-hour Audit for 1 to 6 participants.

Safety Compliance Audit

This 8 hour program will assess company safety compliance activities to assure that they are in compliance with corporate and OSHA requirements. AKA will work closely with supervisors and employees to develop or modify specific safety procedures needed to bring the company into compliance with corporate, OSHA and other applicable health and safety regulations. Examples of these assessments include:

- Specific Lockout/Tagout Procedures
- Confined Space Assessments
- Personal Protective Equipment Hazard Assessments
- Fall Protection

AKA will work with company to develop required programs that are tailored to the individual company needs and corporate requirements. Implementation of these programs will aid the company in meeting regulatory, OSHA, and company safety requirements. To aid in implementing these processes, this audit will include clear outlines of responsibility, accountability and authority within each individual location. Examples include:

- Respiratory Protection
- Lockout/Tagout-Energy Isolation
- Powered Industrial Trucks
- Confined Space
- Emergency Action Plans
- Fall Protection Plans
- Exposure Control of Blood-Borne Pathogens

Upon Completion of this Audit, participants will:

- Have written plans for PPE
- Have written plans for emergency situations
- Documented Safety Training Program
- Document plans for emergency drills

"Ensuring safety is a key to continued success"
