

Safety Management Audit/Workshop

Services	Deliverables
▪ Safety Management Audit	▪ 8-hour Audit for 1 to 6 participants.

Safety Management Audit

This 8 hour program will audit management's commitment to the safety and health program. It will also audit safety and health discussion in the overall annual plan.

The audit will include the written safety and health plan. In this safety and health plan employees will have documented assignments as well as designated responsibilities for safety and health policy.

The audit will also cover the safety team or committee and their activities.

Training will include methodology for:

- Evaluation of annual safety programs
- Identification of existing hazards in the work place
- Identification of potential for hazards in new processes
- Safety walks
- A written system for employees to post safety concerns (without fear of reprisal)
- Written documentation on accident investigation
- Documentation of hazards identified
- Identification of injury and illness trends

Access will be granted to internal and external safety professionals as needed.

Upon completion of the workshop participants will:

- Understand employee commitment to the safety & health program
- Have an updated written safety program in place
- Have created or updated a safety team.
- Be ready to identify and control existing and potential hazards in the work processes

The company will provide the classroom and refreshments for participants and the AKA trainer.

"Ensuring safety is a key to continued success"
